SATURDAY MAY 14, 1881

IN OUR CIVILIZATION PERMANENT?

In the ages that have elapsed since the human race appeared upon the face of the earth, countless systems of civilization have sprung up and disappeared. Long before the invention of letters or written history tribes of men cultivated the arts and industries in widely distant lands and with different degrees of success. Letters themselves must have originated in an unusually inventive period, and the rudest hieroglyphics came from a people of considerable training within the reach of the records. Mighty empires have come and gone with high developments of mental culture. In his celebrated lecture on the lost arts Wendell Phillips says that the ancients had all the tools and mechanical appliances that we have, and many that we have lost. He even claims that the steam railroad and electric telegraph were used at the building of the pyramids. However high the intellect of man may have reached in those early days, all the systems of civilization previous to ours were mere bubbles upon the great sea of popular ignorance and superstition, mere islands in the ocean of life. Homer wrote the greatest of poems in a land that was afterwards swept by savages. Egypt built the everlasting pyramids, and her children have gone back to barbarism. Greece, the mother of orators and sculptors, and Rome, the birthplace of immortal painters, were spots of light in an unappreciative wilderness, and they were extinguished. Now, on the contrary, the seeds of scientific investigation have spread over whole continents. Instead of listening to priests the people ask for reasons, and although we have not Homer we have armies of patient workers, and the little islands have grown and strengthened until they present to the waves of bigotry and ignorance rock bound continents to best against, and if one point is undermined another is pushed out, and the mainland is constantly encroaching upon the floods. On the the continents thus reclaimed the structures of mechanical invention, of art, of literature, and poetry will continue to rise in peace and quiet, and it seems safe to predict that our present growth will continue forever, unless some geological catastrophe to the earth's climate destroys our intellectual development.

EDITORIAL NOTES.

Colonel Waring's second paper on the "Sanitary Condition of New York," will appear in the June number of Scribner. It is said that the author goes into every detail of the subject and grapples fearlessly with the most difficult parts of the problem. His recommendations, if carried out in their integrity, would, he believes, constitute "a complete remedy for all the remediable sanitary evils of the city of New York, so far as they relate to its soil, its streets, its houses, or its water supply." They involve nothing that is impracticable, of improbable value, of uncertain effect, or of undue cost.

The Carson times is filled with editorials garbled from the GAZETTE. The pungent south-sayer of that paper says, among other things, that the GAZETTE is misinformed.

The GAZETTE is informed that the ink-waster of the hard times recently visited Dr. Clark at Stockton. That a Nevada lobbyist was there, and took up so much of Clark's leisure that the Nevada thunders "could not get in a word edgewise."

Will the Carson wit contradict this?

The GAZETTE refers to the utterances of the Times on the Asylum injunction suits as gratuitous insults to the people of Reno.—Tribune.

Statements of facts are not insults (if they were the earping Tribune would never insult any one) and our terms are 35 cents per week.

This practical confession that the people of Reno have been intentionally misrepresented ought to increase the Times' subscription list in Reno.

There are a few people who fear the

GAZETTE will misrepresent Gov. Kinkead. The editor of this paper will conduct this part of the business to suit himself, and the few people mentioned will save trouble by attending to their own affairs.

Referring to the curfew law recently published in the GAZETTE the Appeal falls into poetry in a friendly way.

The curfew tolls the knell of parting day.

The bold policeman slyly lies in wait;

Steward the hoodlums plods his weary way

Cursing the statutes of his native state.

The GAZETTE's interview with the Governor of Nevada on the famous injunction suit seems to have been so near the point as to cause much discomfort among the friends of Doctor Clark.

Kallach senior is still the center of attraction. He has caused a split in the Baptist conference at Dixon. They don't like the sand-lotter, but he won't be sat upon.

PACIFIC COAST NEWS.

SEATTLE.

W. H. Smith, Supt. of the Belcher, and F. A. Trille, of Virginia City, are in Eureka.

It is said that the Comstock sharps took in 30,000 shares of Albion just before and after the rendering of the Rising decision.

It is thought there will be difficulty in obtaining sufficient labor to rapidly extend the narrow gauge road south from Hawthorne.

Johnny Thacker, of Humboldt county, has been appointed by Wells, Fargo & Co. as their detective for Arizona.

Senator Fair is expected from San Francisco any day. He has been talking of coming up for nearly a week. Mr. Mackay will start home soon, it is thought.

The Carson Mint has received a car load of copper ingots, to be used in coining and refining purposes, from the Ludwig copper mine in Mason valley.

Times Review: Eureka is a more expensive place to live in than Tuscarora. Our Justice only fines opium smokers \$10, while the Base Range Alcalde assesses the pipe hitters \$50 each.

By an accident on the Ruby Hill railroad on Wednesday, John Morrison, a brakeman, was thrown under a train of loaded ore cars. His left leg was terribly crushed and mangled. The doctors think they can keep him from dying.

E. M. Houe, of Alpha, came to Eureka on Wednesday suffering from a partial stroke of paralysis of the left side. He was taken suddenly with the stroke, while helping to load one of his coal teams.

Citizen Tribune: This morning the 6-year-old son of M. M. Hyde, a workman in the machine shop of the V. & T., fell from a barn, breaking his arm in several places. Drs. White and Lee set the injured limb.

Foreman Leysion, of the Alexandria and Kit Carson mines, informs a Leader reporter that the late snow fall on Prospect Mountain was the heaviest that he had seen at this season of the year in a four years' residence in that locality. It was eighteen inches on a level. This inures plenty of grass and water.

Manager Eckard, of the Richmond, informs the Eureka Leader that the furnaces of the company will be closed down for repairs on the 30th inst., and the refinery about a week later, as soon as the accumulated lead is refined. He cannot say how long the works will remain closed, but it will be for a month at least.

CALIFORNIA.

The bonded indebtedness of Stockton is \$385,615.

The Humboldt county Treasury contains \$78,242.

There are 15 prisoners in the Nevada county jail.

Polito Logan, a Mexican, has been arrested at Riverside for horse stealing.

The peach crop of the southern counties is said to be a large one this year.

H. Dolcetti, of Guayulepe, fell in front of his mow and had his ankle cut severely.

Mr. E. White's house at Dun Prairie, Humboldt county, was burned last week. She lost all her household effects.

Yesterday a well-dressed Chinaman was found dead, hanging by his queue in a tree a few miles west of Lodi. A valise belonging to him was lying at the bottom of the tree.

Loretto Delgado, at Stockton, charged with an "outrageous crime on Angeles Massena, had his preliminary examination yesterday, and was held to answer with bail at \$2,000.

A strike of oil was made last week at Newhall, near the old McPherson well. About 75 barrels per day pour out of this new bonanza. Another well gives signs of gushing forth near the same place.

Los Angeles reports an exciting railway last Sunday night. Miss Sepulveda and a lad named Thomas Matt were thrown out and bruised. The whole trouble came from a boy

on horseback, who rode violently against the buggy.

The Marysville Appeal states that Messrs. Boyle and Evans, farmers of Butte county, who recently failed, show that they have lost \$25,000 as a result of floods. Last winter 4,000 acres of sowed land was washed out and ruined.

Six valuable horses were stolen from R. H. Blossom's ranch, near Red Bluff, last Saturday. Two were also taken from Rawson's ranch. A Spaniard was arrested in Chico Monday with one of the animals in his possession.

OREGON.

Judge Joseph Ringo, an old pioneer of Clackamas county, died Wednesday.

Very encouraging reports of crops are received from Clackamas county. Wheat, oats and barley are looking very fine.

Mrs. Thomas Rowley of Oregon City was paralyzed Wednesday. She is helpless and speechless, and but slender hopes of her recovery are entertained.

Wednesday night burglars entered the residence of H. Whitson, near Salem, and stole a number of valuable articles, including a gold watch and some jewelry.

The Dalles Times says: Eddie, aged about eight years, a son of F. M. Ewing, residing in Wasco county, died recently from fright received from larger boys, who chased the little fellow and threatened him with knives.

A letter was yesterday received at Portland from H. M. McCartney, Chief Engineer of the Pen d'Oreille division of the Northern Pacific Railroad, which states that the track is now laid for 100 miles from Astoria and that stages run daily from the present terminus of the railroad to Spokane Falls.

BRITISH COLUMBIA.

Railway work above Yale is being pushed forward in the liveliest manner and track-laying from Emery City is going vigorously on.

On Sunday morning, at the depth of 310 feet, the diamond drill of the Vancouver Coal Company, struck a seam of good hard coal between six feet ten inches and seven feet in thickness. This is indeed a rich strike for the city of Nanaimo, as well as for the company, and goes to show that the theory of the old miners was correct, that a seam of coal extends from Commercial Inlet and the peninsula and out under the harbor.

Over a quarter of a century ago a ship was sunk where the Nanaimo Hotel now stands to a depth of fifty feet, and the coal worked, but the water became too strong for the Indians to bail out with buckets, pumps being at unknown time, and the seam had to be abandoned.

HUNTING AND FISHING.

Trout fishing still continues brisk at Monterey.

Fishing never was better at Tahoe than at present.

Perch are numerous in the sloughs about Marysville.

Fishing has already commenced in the Sierra lakes.

The small streams near Duocan's Mill are reported full of trout.

Some splendid catches of trout have been made lately in Plumas county.

Archery was never so popular about San Francisco and Oakland as at the present time.

Before starting for a long day's fishing, rub a little soap on the furrows of your rod.

The Antioch Ledger says that Columbia River salmon are numerous in the San Joaquin this season.

A dozen or so of the crack shots of Winnemucca are making arrangements to organize a shooting club.

Quite a number of fishing parties are daily at the Pajaro River, near Sargent's, after salmon trout.

A man was arrested a few days ago, at the instance of the Butte County Sportsmen's Club, for killing quails out of season.

How Jay Gould Travels.

The private car in which Jay Gould travels belonged originally to the Missouri Pacific line of chair cars, and when Mr. Gould became President of that road the car was remodeled and fitted up specially for his use. It is called the "Convey" and is in size as large as a Pullman sleeper. The front end of the "Convey" contains the kitchen, the cooking apparatus and the sideboards, where all the cuisine is prepared by an imported cook, who is a French mulatto. The middle portion of the car is devoted to an interchangeable drawing-room, sleeping berths and dining-room, capable of accommodating twelve persons. The rear end of the car is in the nature of a private office, on two sides of which are magnificent divans, and on the right hand side is a large square table, securely placed, and covered with stationery, stamps and telegraph blanks. The movable furniture of the car is unstained white wood, elegantly upholstered with velvet and plush. The tapestry and hangings are all of green to match.

"Now, Sammy, have you read the story of Joseph?—Oh, yes—Uncle."

"Well, then, what wrong did they do when they sold their brother?—They sold him for cheap."

ARRIVAL AT THE ARCADE HOTEL.

J. Norton, Virginia	C. Smith, Carson
D. F. B. Carson	M. K. Carson
E. P. Carson	M. K. Carson
F. P. Carson	M. K. Carson
G. P. Carson	M. K. Carson

Personal.

D. L. Bliss went to Carson to-day. W. R. Cameron went up to Virginia this morning. Mr. and Mrs. G. C. Staley take a benefit at Boynton's Opera House, Tuscarora to-night. J. E. Doyle, of Milford, was in Reno yesterday. He is interested in the Miller district north of Reno. Ruben Eggleston, of Eureka, is in Reno. He will settle his family here, and see what there is in Wood River. Mrs. E. S. Ferguson, administratrix of the estate of R. P. Ferguson and co-executor, advertises to let a wood contract.

The Steamboat Dance.

The dance at Steamboat was well attended last evening. Several four-in-hands came down from Virginia City, and many tourists from Reno were also at the Springs. Cara's fine band furnished music for the dance, which was kept until the dawn. A fine collection was spread for the guests and all were pleased with the arrangements for their comfort. The Steamboat leaves are becoming quite popular.

Police Court.

This morning Judge Young fined A. J. Jones \$25, and T. Higgins \$15 each for assault.

LOW GRADE ORES.

Matters of Interest to Washoe Mine Owners.

A dispatch from New York, dated 11th, says: "Messrs. Mathey, Kustel and Rott, of this city, have recently made some very interesting experiments on concentrating low-grade ores forwarded by the managers of the Sutro tunnel. These experiments have been very satisfactory. Specimens were received from the Savage, Hale and Norcross, Consolidated Virginia and California. By the Krom process and subsequent wet concentration 100 tons were concentrated into four and three-quarters tons at a cost of \$1 a ton. It cost \$10 a ton to work the concentrated ores, making less than \$150, against \$300 under the old process. The 100 tons, containing by assay, \$1,922, by this process yielded \$1,508."

The Enterprise says this ore was sent East about eighteen months ago. Why they have been so long about working it, or, at least, about making returns, we do not learn. Since it paid at the rate of over \$15 per ton, it was not, after all, of very low grade. That which is of the most value in the report is the fact that 100 tons can be reduced to four and three-quarters tons at a cost of \$1 per ton, and that the material so concentrated can be worked for \$10 per ton.

If the above results can be obtained in New York, those almost as good should be attainable here on the Truckee river, and ore assaying from \$3 to \$5 per ton could then be worked to a profit.

Church Notices.

There will be divine services at the Methodist Episcopal Church to-morrow at 11 A. M., and 7:45 P. M., Rev. C. McKelvey officiating. Sing service in the evening at 7:15 o'clock. Seats free. All are invited. Sabbath School at 1:30 P. M.

There will be divine services to-morrow morning at 11 o'clock, and to-morrow evening at 7:30 o'clock, at Trinity Church.

Congregational church, G. F. G. Morgan pastor - Service to-morrow as usual. Sunday School at the usual hour. Baptist church - Prayer meeting at 11 A. M. every Sunday, and Sunday School immediately following.

There will be no service in the Catholic Church to-morrow.

Hoppers.

The six legged pest is beginning to travel and be inordinately hungry. They have eaten about 40 acres of wheat for James Marberry, and he expects they may commence on his alfalfa any day. Frazier, Steele and Winfrey will commence cutting next week in order to save something from the wreck. The hoppers strip the leaves from the grass and those who cut now will only get a short crop. Watch them. Fogg says that in the present condition of mind the hopper is like a hungry editor. "He strikes out for grub when he can get it for nothing where he is."

Astronomical.

Everybody ought to be up on May 26th at 3 o'clock to look at the moon. The moon will then be near Venus, Saturn and Jupiter. As Venus rises on that morning about ten minutes after three o'clock, Saturn ten minutes later, and Jupiter about ten minutes after Saturn, if the sky is clear it will be safe to promise a first-class planetary entertainment, well worth taking pains to witness. The new moon on the 27th throws her shadow over a portion of the earth, and causes a partial eclipse of the sun.

Carson & Colorado.

T. K. Hymers has returned from a business trip to Hawthorne. He says the new town is growing fast, has fine water works, and a promising future. The Carson and Colorado is a splendid road, and is the fastest road in the State. Paymaster Loughton went out when Hymers did, and the train was forty-five minutes behind time at the start. Loughton stopped at every station and paid off, and the train reached Hawthorne on time.

A Novel Race.

Uncle Alf Hill is arranging a novel race, which will take place at the track on Saturday next. This race will be on the dead square. The race will only involve judgment as to time. Every horse, whether runner or trotter, will be admitted on payment of \$5 entrance fee. A purse of \$50 will be added, and the horse which covers a mile nearest to 5:30 will take the money.

JOTTINGS.

Hot, cold, and shower baths at Pechner's.

The Crown Prince mill matter is progressing slowly. B. F. Bacon will keep a general supply store at Verdi.

The old reliable bath house is the place to get your baths. The District Court will entertain the Lake case on Monday next.

Very heavy train this morning. It did not reach Reno until 10 A. M.

Haverly's Mastodon Minstrels went up to Virginia this morning. High Bowman's family left Tuscarora Thursday on a visit to relatives in Reno.

Do not forget that Pechner's bath house is on Virginia street, near Barnett's store.

No cleaner tubs, nor better towels for bathing, than at Pechner's on Virginia street.

Pechner is the worst man on record. He always advertizes. Don't forget the place.

Rev. Winfield Scott will preach in the Baptist Church to-morrow morning and evening.

Harper's Magazine for June is an exceptionally bright number. It can be had at Allen's.

Senator King, W. S. Wood and Hub Parker, were passengers for the Bay last night.

The Asylum injunction suit was to have been heard before Judge King to-day in Carson.

Dr. Baker, L.L.D., of St. Mary's Academy, instead of Barker, will lecture this evening at Reform Club.

Don't forget the citizens' meeting on Thursday night next at Reform Club Hall, to discuss N. S. A. M. & M. S. affairs.

Jerry Brown sends the GAZETTE the first number of the Wood River News. The Riverites have already tumbled to Jerry's advertisements.

List of Letters.

Remaining unclaimed for in the Post-office at Reno, Washoe county, Nev., May 7th, 1881. Parties calling for any of these letters will please say "advertized."

Grand Lodge.

The Independent Order of Odd Fellows will hold a session in Eureka on June 7th.

Wilday Lodge, No. 1, sends the following delegates: T. G. Baker, S. F. Carpenter, T. H. Keeley, Lewis Deck, Richard Mercer, Amos Merritt, William Mercer, Daniel McSherry and W. G. Thompson.

Parker Lodge, No. 13, also sends nine delegates, who are: Gordon Grant, Daniel Grant, Thomas Rowe, James Langan, Thomas Marks, A. J. Sielaff, Conrad Haub, Alex. Moore, John Penhall.

J. & K.

Geo. Logan has abandoned the J. & K. contract. The formation was too hard for him. The company will now put in a Burleigh drill, and run it by steam from the mill. They already have the drill, and expect to have it at work in two weeks. Kinked believes he can put the tunnel in in sixty days.

Some Gossip.

Nash, of the Toledo Blade, has written the GAZETTE that he wants a \$15 ad. for \$1. Also that he is going away and will write letters to his paper. "Nash has permission to go, and stay indefinitely, and this is intended to advertise his gall."

C. N. Co.

The local editor acknowledges the receipt of an invitation to be present at a partial eclipse of the sun, which will be visible on May 27th, in Northern Asia. It will be hardly possible for him to attend.

Tube Boxes and Cigarette Boxes.

Thoro and fine. Just received from the East, and ready for sale.

ISSUANCE INJUNCTION.

Who is Helping the Enemies of the Bill To Divide Its Fruits?

The GAZETTE understands that the same bill which provided for the building of the Asylum, pre-cried the contract which was to be made with Langdon & Clark. If that bill is unconstitutional, the contract made under it will be void, and the care of the insane will be confided to some bidder who answered the advertisement of the Board for proposals. The GAZETTE's authority for saying the defeat of the bill will not operate to the benefit of Dr. Clark, was information from five members of the Commission. The GAZETTE does not pretend to be better informed than the Board. Concerning the proposition of delay, a GAZETTE representative interviewed Controller Hallock in Carson last night. The Controller says that no such proposition as mentioned in Varian's card was ever made to him. He would not at any rate refuse to draw a warrant, not as that would mix things up beautifully. All of the information received at this office shows that the GAZETTE has been right on this question, and that parties who know the truth are keeping it from the public. The people of Reno have been honest in believing that the Asylum project was for the benefit of the State. If they can now quietly submit to have the measure approved by those who should defend it, the GAZETTE is satisfied. The GAZETTE will publish the news regarding this suit, and the truth, however studiously concealed, will not escape it.

A Neat Speech.

Coomrod Flanagan, Tarry-eyes Henderson, says your soul an' all go fishin'. "Good mornin' this mornin'! My name's Sugartail what's the matter of you?" He said it on the road to Steamboat.
